

Quality Policy

The quality policy of EMXYS, S.L. is to provide our customers, products and services that meet the requirements, are competitive and free of defects, so that our firm means quality for our customers.

It is intended, therefore, that the Quality Management System of EMXYS, S.L. help us in our desire to have a consolidated presence in the current market and to improve our strategic positioning regarding the competition within our sector, through the attainment of increasingly high levels of customer satisfaction and participation and involvement Of all the people that are part of our organization, all combining, in a balanced way, quality and productivity in a profitable way for the business resulting from our business activity.

The Management therefore assumes the commitment to persevere in these guidelines and to ensure that our staff becomes aware of them and applies them consistently.

In accordance with these principles, a series of goals is established that are translated into specific objectives, year after year, and that are based on the following strategic perspectives:

- A. The full satisfaction of our customers.
- B. The continuous improvement of the efficiency of the Quality System.
- C. Continuous improvement of productivity.
- D. Encourage the active participation of all staff.
- E. Complying with and enforcing applicable legal and regulatory requirements.
- F. Compliance with deadlines.
- G. Compliance with customer requirements.
